

## ASSIGNMENT #2

1. Show the final mosaic for one of the provided example image sets. Also show the individual remapped source images after they are warped but before they are blended together into the final mosaic (as in the figure above).

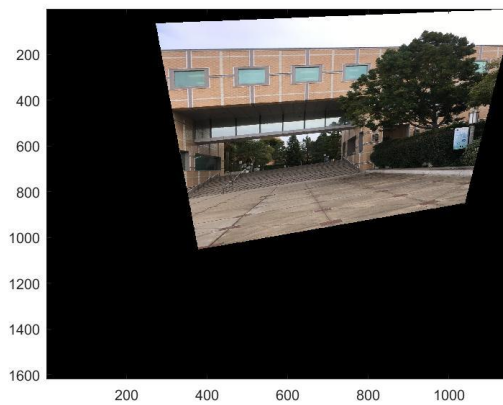

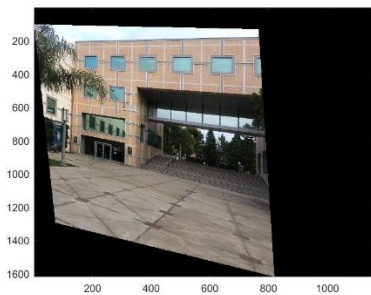

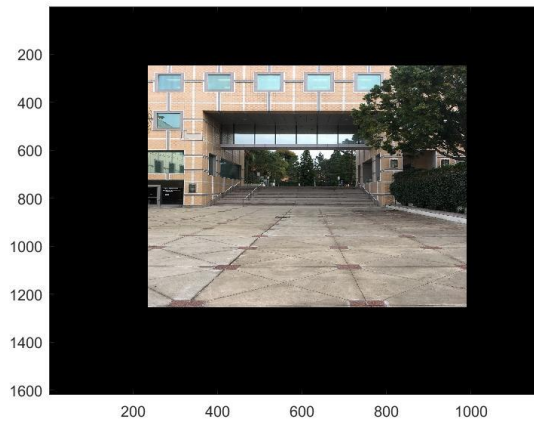

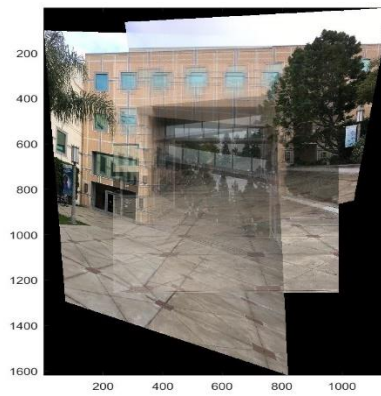

AFTER BLENDING, BEFORE 2-BANDS BLENDING

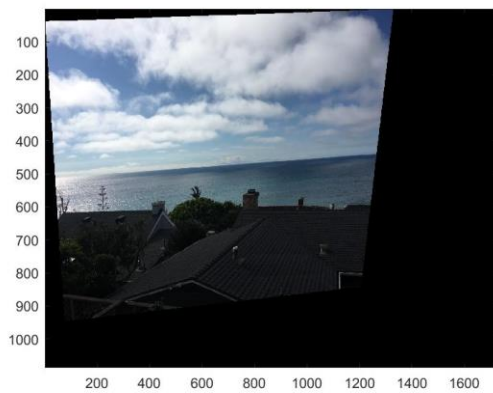

2. Show two mosaics of your own creation, each with at least 3 source images. You should use your own camera to take images. Remember that you want to keep the camera center in the same location and simply rotate the camera. For your writeup, show also the remapped source images before they are blended into each final mosaic.

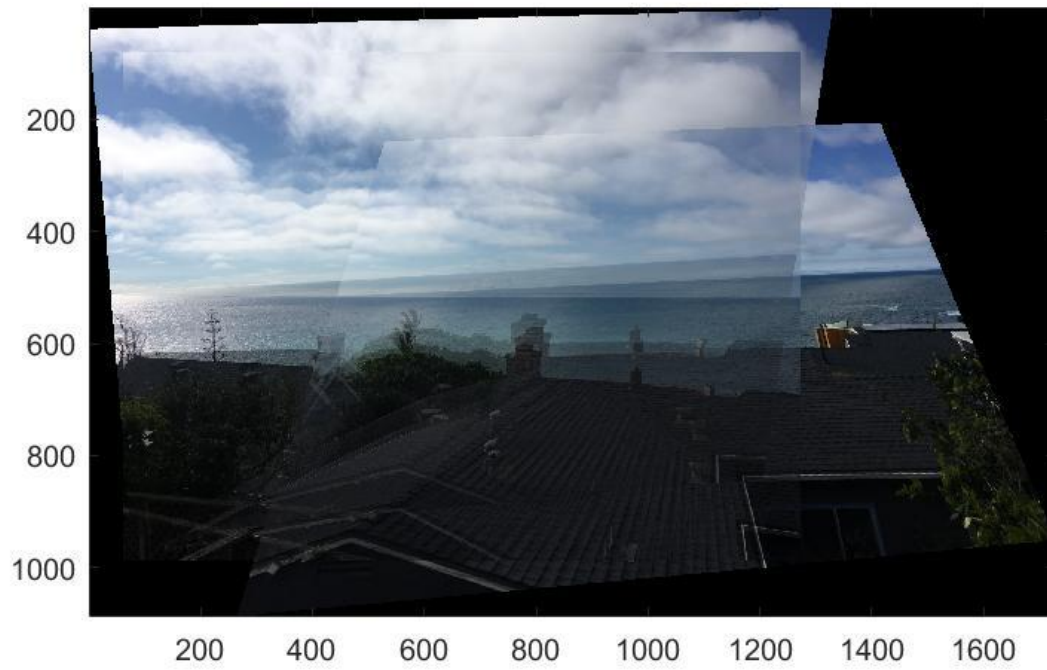

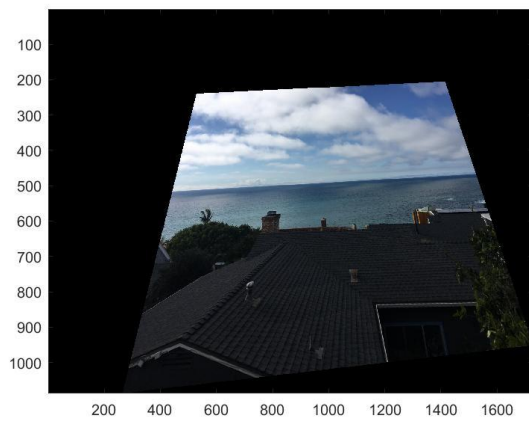

MOSAIC 1

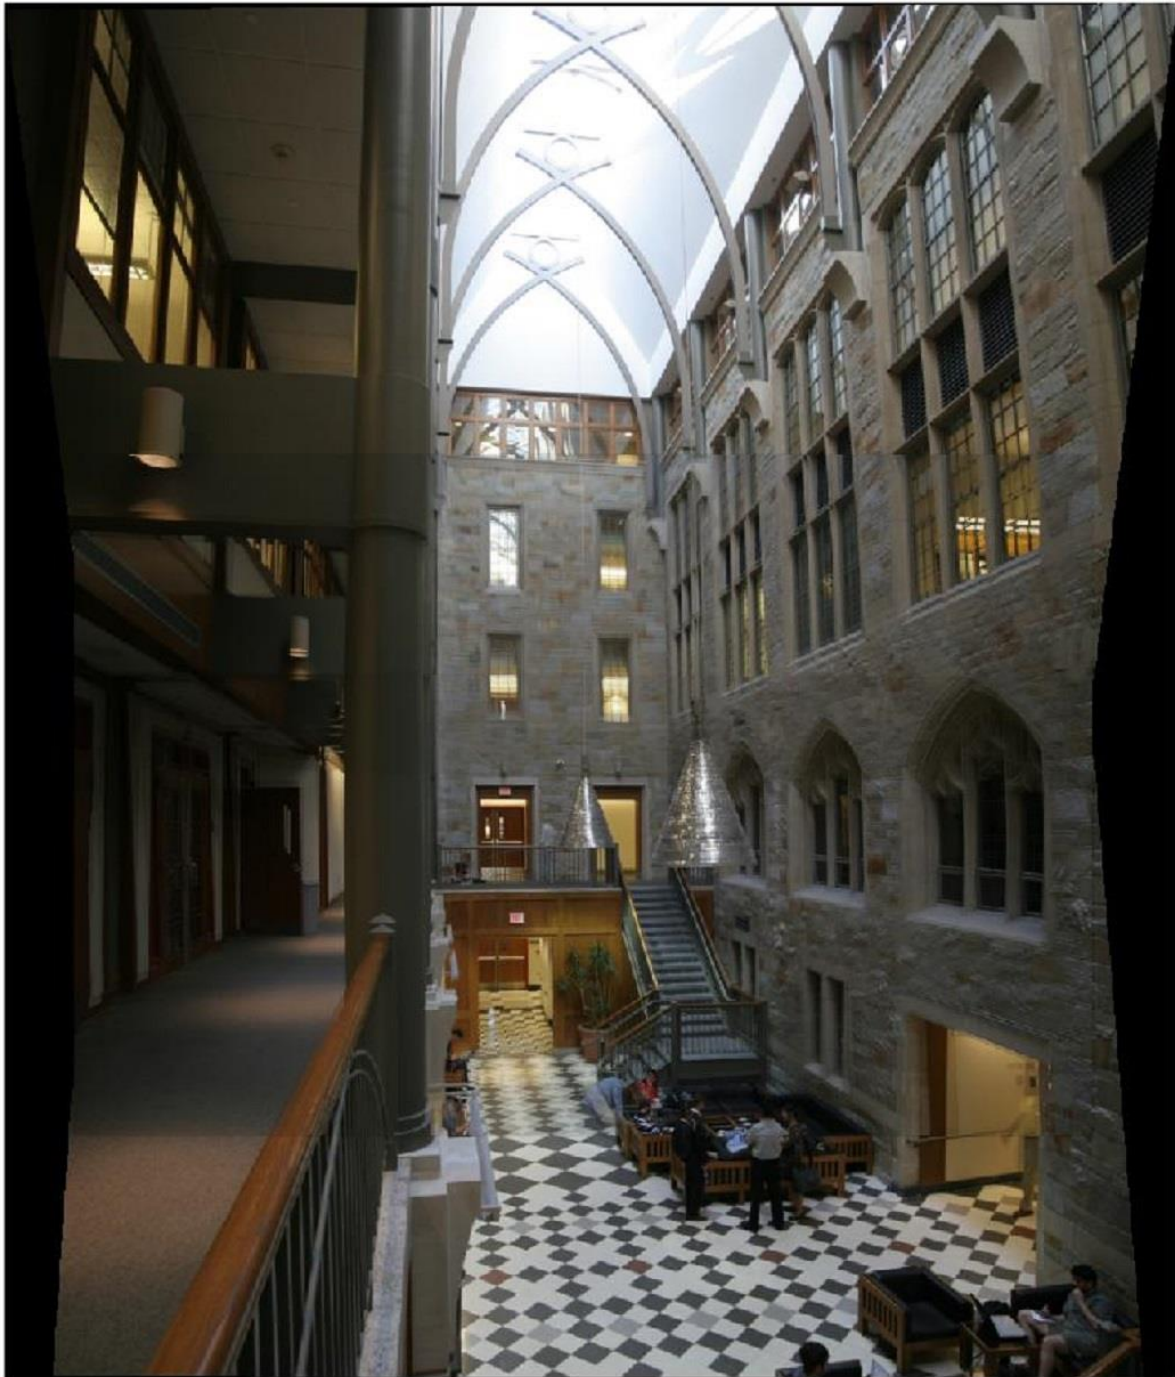

## MOSAIC 2

### 3. TWO-BAND BLENDING

Showing the progress:

Before 2-band blending:

After 2-band blending:
